5

6 **Specification Amendments**

7

8 Please amend the specification as follows:

9

10

11 Substitute the paragraph starting at page 6, line 22, with the following:

12

13 Rendered content 226 includes a selectable data link 228 and various
14 sections and/or frames. The selectable data link 228 can be a hyperlink, in the
15 case of a Web page, or any other type of selectable connection that generates a
16 request for content when selected by a user of the client device 206. The various
17 sections of the rendered content 226 can include a browser header 230, a Web
18 page header 232 (in the case of the rendered content being a Web page), a content
19 section 234, a browser footer 236, and a navigation section 238. Although only
20 one selectable data link 228 is shown in the content section 234, data links can be
21 located within any of the rendered content sections, and particularly in the
22 navigation section 238. In the case of a Web page, data links in navigation section
23 238 "navigate" a user of the client device 206 to other Web pages and/or Web
24 sites.
